There is no defence offered for the wealth has accumulated under these preferences, a fair field and no favor has been denied to the masses. We feel and resent this order of things.

We cannot expect remedles from men high in office who in their entire life work have been associates and participants with the favored class. Mr. Roosevelt during his entire career in politics and as the head of his party has been the protector of many trusts that the tariff has nourished and fostered, nor have we found him in the seven and one-half years of his official life as President strenuous in protective tariff, and would, if elected, defend what to many minds is the supreme cause of unrest.

In Mr. Wilson and his associate, the Prof. candidate for Vice-President, we have two men who have had no associations with the privileged class, who have never been in a position to grant or measure that could possibly relate to their personal welfare or increase their incomes. It seems that when a well-known citizen of that section was demonstrating to his young son some of the fine plays in the great national game that the ball was knocked over into the lot of a neighbor, and instantly from the house emerged a woman who pounced down upon the ball and it was thought she had in mind a touchdown. But before she could accomplish the play the male "team" was on the spot and a lively scrimmage ensued for the possession of the ball, but it terminated in the female re taining the ball in her territory. The worsted male departed crestfallen.

The second quarter of the game, if t was football, or the second inning if it was baseball, was played at the mayor's office Tuesday morning when the male "team" was summoned to appear at the instance of the female "team" and plead to a charge of assault and battery, alleged to have arisen during the scrimmage for the ball. The accused acknowledged the scrimmage and the mayor marked up a score of \$5 and the costs, all of which was settled.

Next year's schedule has not yet been completed.

glands in the groin swell, and sometimes the hair comes out. Mineral medicines cannot cure Specific Blood Poison; they only shut the disease up in the system to smolder and await an opportunity of breaking out afresh. The only possible way to cure the disease is to remove the germs from the blood. S. S. S. goes into the circulation and removes the last trace of the infectious virus, tones up the stomach, bowels, kidneys and all portions of the system, and thus makes a perfect and lasting cure. S. S. S. is made entirely of roots, herbs and barks; it does not contain a particle of mineral or other harmful drug. Thousands have cured themselves of Specific Blood Poison by the use of S.S.S.
